PERSONAL PROFILE

I am a third-year BS Information Technology student driven by a passion for creating organized, reliable, and meaningful technology solutions. My strengths lie in **documentation, quality assurance, and project management**. I have led multiple group projects as Project Manager, coordinating timelines, delegating tasks, and ensuring smooth delivery using Jira, and I currently serve as **Documentation Lead** for my capstone thesis, iDetect.

I recently completed 60 workdays of on-the-job training in the Parts Department of **Toyota Valenzuela**, where I worked inside SAP every day. I value punctuality, accuracy, and attention to detail, and I believe good systems and strong teamwork start with proper planning and clear communication.

CAREER OBJECTIVE

To grow as an IT professional in documentation, quality assurance, and project management, applying what I have learned in school and in the workplace while continuously developing my technical skills.

EDUCATION

School	Program	Period
Pamantasan ng Lungsod ng Valenzuela	BS Information Technology, 3rd Year (expected graduation 2027)	2023 – Present
Valenzuela National High School	Senior High School, ABM Track. With High Honors (Grade 11), With Honors (Grade 12)	2021 – 2023
Valenzuela National High School	Junior High School. With Honors (Grades 9 and 10)	2017 – 2021
Doña Ata Elementary School	Elementary	2011 – 2017

ON-THE-JOB TRAINING

OJT Intern, Parts Department Toyota Valenzuela, Valenzuela City · 60 workdays logged **June 29 – Nov 5, 2026**

Toyota Valenzuela is the first 3S (sales, service, spare parts) Toyota dealership in Valenzuela City, inaugurated June 28, 2019, and the 70th Toyota dealership in the Philippines.

Parts Administration in SAP	Processed client parts requisitions and orders; assisted in creating part numbers; posted received goods; prepared SOPH forms for back-ordered parts and customer information slips.
Quotations & Accessories	Prepared Sales Quotations for Marketing Professionals; updated the FJ Cruiser accessories price list; installed accessories such as side visors, luggage trays, and undercovers.
Data & Inventory	Encoded SAP records into Excel for documentation; monitored inventory levels; verified part availability; maintained PSI, TMP delivery, and BP monitoring records.
IT Support	Formatted units and installed Windows 11; set up computer units and assisted with IP management; installed required applications; replaced printer toner cartridges.
Beyond the Desk	Edited the Parts Department organizational chart in Canva; appeared in parts promotional videos; attended the Toyota General Assembly and the OJT visitation; supported warehouse tasks.

What I learned: failure is part of progress, accuracy matters because one wrong part number or posting can delay a mechanic's order, and adaptability grows when you keep saying yes.

ACADEMIC PROJECTS

Project	Role	Highlights
iDetect: OCR-Based Discount ID Verification	Documentation Lead (Capstone) · 2026 – Present	Multi-portal web app that detects fraudulent Senior Citizen and PWD IDs using Tesseract OCR, OpenCV, and fuzzy text matching. Prepared system and research documentation and interviewed the OSCA and PDAO offices.
